UK PREMIUM PARTNER

As a recognised UK Premium Partner of Trespa® TopLab®, we're delighted to share our UK Stocking Programme to meet your project requirements. For a scientific surface solution tailored for functionality think Trespa® TopLab® BASE.

SUSTAINABLE DISTRIBUTION

As a distributor we are taking steps to reduce our carbon footprint. We calculate the carbon emissions of every Performance Panels delivery and compensate the total carbon emissions generated whilst in our care by investing in Gold Standard carbon credits equating to the emissions made to offer a carbon neutral distribution service.

TAILORED FOR FUNCTIONALITY

Trespa® TopLab® BASE is developed specifically for functional and scientific applications. This durable material is ideal for highly used areas, making it the preferred choice for worktops and cabinetry in sectors such as education, laboratories, and institutions.

PERFORMANCE QUALITIES OF TRESPA® TOPLAB® BASE

ENVIRONMENTAL IMPACT

Embodied carbon (climate change total - total Global Warming Potential (GWP)) is **3.46 kg CO₂eq**, that's **significantly lower** than comparable HPL products in the UK that reach in excess of **25 kg CO₂eq** based on calculations and environmental product declarations data.

To understand more about the environmental impact of this material **view the product EPD** or to **request a free carbon calculation** of your project, please contact the Performance Panels team.

HEALTHY AIR QUALITY

This material is **certified as GreenGuard Gold** and is up to **56% lower in VOC's** and up to **85.3% lower in formaldehyde** than comparable HPL products in the UK.

Based on testing and certification.

ABRASION RESISTANCE

133% greater resistance to surface wear than comparable HPL products in the UK.

In accordance with Resistance to surface wear (EN 438-2:10) Production control (tested on black décor).

FLEXURAL STRENGTH

25% stronger in resistance to breakage under a heavy load, reducing breaking or cracking possibilities than comparable HPL products in the UK.

In accordance with flexural strength MPA test (EN 438-2:7).

Every Trespa panel that we deliver automatically comes with a 10 year warranty.
